Pydeti Yeswanth Sai Raghuram

Eluru | yaswanthsairaghuram@gmail.com | +91 9381249993 | Linkedin | Github | Portfolio

TECHNICAL SKILLS

Programming Languages: Java,python,CPP,C

Frame works: Boot Strap

Front-End: HTML,CSS,Javascript,React.js,React Native

Back-End: Express JS,Mongodb

Developer Tools: Git, Github, VSCode

EXPERIENCE

Technical Hub - Full Stack Developer

- Acquired in-depth knowledge of web technologies, including HTML, CSS, JavaScript, React.js, and Node.js.
- Developed expertise in full-stack web technologies, and was one of the first five to identify and resolve critical front-end bugs, enhancing application stability and reducing user-reported errors by 12
- Designed and built interactive and responsive web applications.
- Focused on mastering foundational front-end development principles, including responsive design, cross-browser compatibility, and UI/UX best practices.
- Continuously learned and explored modern web development frameworks and best practices.

PROJECTS

PowerX - Fitness Blogger Website   GitHub Repo   Live Demo

- Designed and developed PowerX, a comprehensive fitness management platform using the MERN stack, enabling users to log and track workouts, diets, and yoga routines. .
- Implemented secure user authentication with session management, and role-based access control to enhance data security and privacy.
- Built an e-commerce-inspired Shopping Cart with React state management, allowing users to browse, add to cart, and purchase fitness-related products seamlessly.
- Integrated interactive data visualizations using Chart.js, displaying calorie intake, calories burned, weight progress, and BMI calculations, enhancing goal tracking and engagement.
- Optimized performance and scalability by implementing RESTful APIs, MongoDB indexing, and server-side caching for efficient data handling.
- **Technologies:** React, Node.js, Express.js, MongoDB, CSS, JavaScript, Chart.js

Fresh On Wheels - Food Delivery Website   GitHub Repo

- Engineered a responsive menu selection and add-to-cart feature, enabling real-time order customization and enhancing overall user engagement.
- Redesigned backend architecture with Node.js, Express.js, and MongoDB, improving system efficiency and cutting API response times by 50%.
- Integrated Stripe payment gateway for secure and seamless transactions during checkout.
- Developed a comprehensive admin panel for managing products, orders, and user accounts, improving backend operations and scalability.
- **Technologies:** React, Node.js, Express.js, MongoDB, Stripe API

ACHIEVEMENTS

Leet Code: Solved 100+ Problem

Code Chef: Solved 150+ Problems

Hacker Rank: 5 Star in Problem Solving, C, C++, Java, Python

CERTIFICATIONS

IT Specialist in Java	View Certificate
IT Specialist in HTML, CSS	View Certificate
IT Specialist in Python	View Certificate
IT Specialist in Java Script	View Certificate
Red Hat System Administration (RHCSA)	View Certificate
ServiceNow Certified System Administrator	View Certificate
ServiceNow Certified Application Developer	View Certificate

EDUCATION

Aditya Engineering college, Information Technology   2022 – 2026
- CGPA: 8.15/10

Sasi Junior College, Class 12th   2020 – 2022
- Percentage: 90
